Montenius Consult

Our aim is it to support our customers in realizing visions on their mountains with creative ideas, technology and know-how from the first planning sketches until the operation of new facilities. We put a large emphasis on retaining the genius loci – the local spirit – and strive to find solutions which enhance the spezial character of each location in keeping with the locality.

Ski Weltweit

Ski worldwide - my journalistic work has a clear focus. While riding a lift in the Andes, celebrating après-ski between Lebanon cedars and when enjoying powder with views of the Pacific I encounter my peers: skiers. We share the passion for the most beautiful thing in the world that you can with your clothes on.
